💡 Pro Tip: Open the dashboard link on a separate device to see all teams' budgets and rosters simultaneously.

PHASE 2

Bidding & Real-Time Sync

Player Card

Shows current player, their pool (A1, B, etc.) and base price.

The Timer

Counts down to the sale. Every new bid adds a small "bump" (e.g., +10s).

Standard Bid

Tap the large Green button to raise the bid by the global increment (e.g., +500 pts).

Custom Bid

Enter any amount higher than the lead to jump the price strategically.

PHASE 3

Budget & Squad Rules

The app enforces mathematical fairness. You can never "overshoot" your budget.

The Reserve Rule

You must keep enough points to pay the **Minimum Bid** for all remaining squad slots.

```
BUDGET LOGIC

Remaining Slots: 5
Min Bid: 1,000 pts
Reserved: 4,000 pts (for slots 2-5)
Max Allowable Bid: Budget - 4,000
```

Squad Builder

Use the sidebar to track your roster. It displays:

- ✓ Every player purchased
- ✓ Cost of each player
- ✓ Total points spent

⚠️ If your Bid button is grayed out, it means you don't have enough budget left while still obeying the Reserve Rule.

PHASE 4

Auction Tips

Shout Errors

If you tap by accident, tell the Admin immediately. They can pause or rollback.

Watch Pools

Keep track of how many players are left in each pool to gauge scarcity.

Jump Bids

Use custom bid amounts to intimidate rivals on high-value players.

SUMMARY

1. Log in early.
2. Watch your budget/squad count in the header.
3. Use the Bid button for speed, Custom for strategy.
4. Support your rivals—just kidding, good luck!
